

## 50 YEARS and COUNTING

Postle Industries, Inc. proudly celebrates our 50<sup>th</sup> Anniversary this year. In 1969 John E. Postle started a business by working out of his house as a welding distributor in Parma, Ohio (suburb of Cleveland). Over the years the company has grown with the leadership of John's sons, John G. Postle and Chris Postle. In 2019 we are now honored to be considered a major manufacturer and distributor of welding products in hardfacing and hardbanding.

Postalloy hardfacing products can be found in the manufacturing, agriculture, recycling, mining, sugar cane, railroad, and construction industries. Our products are also available in most of the industrialized countries around the world. John and Chris, in 2008, used their experience and knowledge of wear resistance welding alloys to launch Hardbanding Solutions, a division of Postle Industries, Inc to service the oil & gas industry. They first introduced Tuffband<sup>®</sup> NC which was specifically designed to perform with the following properties; non-cracking, casing friendly, and ease of reapplication. The introduction of Duraband<sup>®</sup> NC followed shortly on the heels of Tuffband. Along with the great characteristics of Tuffband, Duraband offered superior wear resistance.

Duraband is now one of the most widely utilized hardbanding wires in the world due to the support of our customers. However, in celebration of our 50<sup>th</sup> year anniversary, we are reminded that our success doesn't come exclusively from our products. What has fueled our growth is the support that we provide during and after the sale of our hardbanding wires.

Postle's commitment to support our products and customers after the sale is unmatched.

- Online Hardbanding Training Videos
  - On-site Hardbanding Training
    - Company & Operator Hardbanding Certifications
  - Site Inspection for Quality Control
- Monthly HBS Newsletter with Application Information to Help our Customers
  - On-line Defects & Repair Troubleshooting Guide
  - Fearnley Procter NS-1<sup>™</sup> Certifications and Manuals
- TH Hill Re-Application Test Reports
  - Multiple Inventory Locations for Product Distribution
  - Consistent Performance

***Postle Industries has been fortunate to serve our customers for 50 years in many industries. We remain committed to the core values that have allowed us to thrive for one half of a century.***

***Thank you for your continued business and support!***
